State-of-the-art Time and Attendance control systems with PEZE:SYS

3

Employing a computer controlled data capture, date processing and data preparation is necessary to cope with the requirement of up-to-date working time regulations as well as flexible working time structures and meaningful data evaluations.

A modern, effective solution does not need to be expensive. The contrary is the case. Our modular system **PEZE:SYS** enables an inexpensive and simple lead-in into PC-based time and attendance control systems.

Time and Attendance control unit

R

PEZE:SYS – The inexpensive lead-in package:
